

DISEASE IN THE HERD

Taberculosis-Infected Cattle Discovered in Goshen, N. Y.

One Cow Had Been Killed and Sold as Beef in This City.

Milk Sent to Various Points and Great Danger Exists.

Sanitary Supt. Dr. Roberts, of the Board of Health, yesterday communicated to the State Board of Health to-day notifying that body of the discovery that a herd of cattle infected with tuberculosis had been shipped from Goshen, N. Y., to various points, and is likely to spread the disease.

A week ago yesterday, Meat Inspector Romyne seized four quarters of beef which had been shipped to West Washington Market, this city, from Goshen. The meat was found to be infected with tuberculosis, and was pronounced to be the worst that had ever come under the notice of the Board of Health.

Inspectors will at once set at work to trace if possible the herd from which the beef came. It was found that the diseased meat had been shipped by Ira H. Smith, a Goshen dairyman, and Dr. Samuel K. Johnson, a veterinarian to the Board of Health. His report was submitted this morning to Dr. Roberts.

He stated that out of a herd of twenty-four milk cows, he found that four were suffering from tuberculosis in its advanced stages; that others showed undoubted symptoms of disease, and that the whole herd was likely to be infected.

The milk from this herd is distributed at various localities, but the major portion of it is sent to Middletown, N. Y., where it is condensed, put up in sealed cans and shipped to New York, where it is put on sale and most of it is consumed.

Mr. Smith, when questioned by Dr. Johnson as to why he had butchered the tuberculosis cow and shipped it to New York, stated that the cow had an injured leg and was unprofitable as a milk producer.

He denied that he knew the cow was afflicted with any disease, notwithstanding the fact that he had been in the dairy business a number of years and had seen many cases of tuberculosis. The Board of Health, however, declares that Mr. Smith must have known that the cow was diseased, and that therefore the meat was unfit for consumption.

The whole herd, Dr. Roberts thinks, will undoubtedly be condemned and slaughtered by the State Board of Health to the members of which are fully alive to the dangers arising to public health from such sources.

Dr. Roberts has not made up his mind whether or not to prosecute Smith, but declares that the determination of the Board of Health might be in this particular instance, the next person whom it could be found guilty of selling diseased meat or milk to New York would be prosecuted to the full extent of the law.

BRAZIL AND PORTUGAL.

A Lisbon Correspondent Thinks Their Trouble Will Be Settled.

(By Associated Press.) LONDON, May 15.—A despatch to The Times from Lisbon to-day says that while the reason alleged for the rupture of diplomatic relations between Portugal and Brazil was the determination of the commanders of the Portuguese warships Mindelo and Alfonso de Albuquerque in allowing the insurgents to escape from their ships at Montevideo, Portugal is entirely blameless in the matter, and has done her utmost to satisfy Brazil by dismissing the commanders referred to.

The correspondent adds that, although the position is considered serious, it is believed that the question will be amicably settled. Portugal has always maintained and desires to maintain the most friendly relations with Brazil.

TROUBLE FEARED IN SERBIA.

Radicals Will Hold Meetings Despite Government Prohibition.

(By Associated Press.) LONDON, May 15.—The correspondent of the Chronicle writes to-day that a popular rising is feared in Serbia. Great excitement prevails among the people, who are indignant at the arbitrary act of the Government in prohibiting proposed meetings to protest against the imprisonment in prison of ex-King Milan. Such meetings would not be allowed, and the Government has endeavored to prevent them. The radicals, however, declare they will hold meetings on Sunday, and continue to be excited.

MOUNET-SULLY IS ELECTED.

The French Actor's Condition Said to Be Serious.

(By Associated Press.) PARIS, May 15.—Mounet-Sully, the actor, who recently appeared in New York, is seriously ill.

DR. JAMAL RETIRES.

His Term as House Surgeon of Governor Has Expired.

Dr. M. K. Jamal retired to-day from the post of house surgeon of Governor Hoffman. He had been in sole charge for the past six months. Under his direction many beneficial changes have been made in the service tending to improve it. The clinic has been so arranged that the patients of the poor have been treated. The patients are loud in their praise of the retiring official. His efforts have been appreciated by the authorities, and he has been warmly commended. He retires because his term has expired.

Dr. J. D. Thomas succeeds him. Dr. Thomas was formerly senior surgeon of the staff.

POISONED BY VACCINE.

Fort Wayne Boy Killed and Many Made Ill by Impure Virus.

(By Associated Press.) FORT WAYNE, Ind., May 15.—Frank Madden, seven years old, is dead from the effects of vaccination. Thirty persons here are critically ill from impure virus. In many cases erysipelas and blood poisoning have resulted. The Board of Health's orders for indiscriminate vaccination has been detrimental to public health here.

A Candid Opinion.

(From Tid-Bits.) At an evening party Dumley was introduced to a young lady, and after a remark about the weather, he said, gallantly:

"Oh, no, Mr. Dumley, the lady replied, 'the beautiful Miss Blossom to whom you refer is a cousin of mine.'"

"Oh, that's it! I thought there must be a mistake somewhere," said the gallant Dumley.

STOLEN TRAIN RECAPTURED.

Seized by Wyoming 'Wealers, Who Drive Off a Marshal's Men.

Cars Abandoned at Green River, Where Coxeyites Camp.

(By Associated Press.)

GREEN RIVER, Wyo., May 15.—When Marshal Pinkham, who was from this, started for Cheyenne, and near Cheyenne, dropped the men wanted by Marshal Pinkham. The Commonwealers took Pinkham's train and started East.

On advice of President Clark it was decided here not to risk destruction of the Union Pacific Railroad Company's property in an attempt to check the industrial train, and the project to block Green River Bridge with loaded cars and engines was abandoned. When the train arrived here with 200 Industrials aboard at 3:15 A. M. Marshal Rankin, with twenty well-armed deputies, was waiting for them.

As soon as the train stopped, Trainmaster Hay jumped on the engine and ran it to the round-house. The Commonwealers left the cars and have gone into camp. Fires will be drawn from all engines and the Industrials kept there.

The greatest excitement prevails at Montpelier, many citizens sympathizing with the Commonwealers, among them Constable Dick Williams, who was arrested. The Commonwealers attempted to release him, but were cowed by three dozen Winchester rifles in the hands of the town's militia. The citizens were held to confer with the opposing forces, but the marshals could do nothing, as their duty was imperative.

TELLER ON THE COXEYITES.

Colorado Senator Calls the Washington Train a Farce.

(By Associated Press.) PUEBLO, Col., May 15.—Senator Teller, in a letter to a citizen of this city, expresses sympathy for the Coxey army now in Washington, declares the arrest and trial of Coxey, Browne and Jones was a farce and concludes:

"It is difficult to know what to do with these people who are here in distress, with thousands of others, through no fault of their own. They know there is something wrong somewhere, and that there ought to be a remedy, and they are waiting for it. I myself believe the dreadful condition of our laboring and suffering people is the direct and immediate result of bad legislation already on our statute books and other that is threatening to make it worse. I believe that the relief that will give the people the most benefit is to be found in the repeal of the laws that have brought about this state of affairs. I believe for my peace of mind it is well I cannot."

GALVIN'S MEN STARVING.

Will Prey Upon Greensburg, Pa., Unless Given Food.

(By Associated Press.) GREENSBURG, Pa., May 15.—The Galvin Commonwealers received very little encouragement here yesterday and now the army is on the verge of starvation. Last night Col. Galvin and his staff called upon the Mayor and Chief of Police and informed them that unless food was given within a few hours he would turn his men loose to prey upon the town.

Forty special policemen are now guarding the town from the starving unfortunates.

Kelly's 'Sailors' in a Fight.

(By Associated Press.) OTTUMWA, Ia., May 15.—There was a small riot at 'Admiral' Kelly's camp last evening. The Mayor of Ottumwa hired and paid for grounds for the 'navy' to camp on. When the men arrived the owner of the ground demanded an admission fee of a head to enter. After a number had paid, Kelly arrived and demanded that it be stopped. Trouble followed and a free fight was in progress when the Mayor arrived and decided in Kelly's favor. The 'navy' resumed its voyage to-day.

Toledo Won't Tolerate Industrialists.

(By Associated Press.) TOLEDO, O., May 15.—'Gen.' Randall and his Chicago 'Wealers' will not be allowed to enter this city. This decision was arrived at by the Police Commissioners yesterday. Mayor Bunker, of the Sixteenth O. N. G., says that he will not give any order calling out the militia, but will be prepared to do so if necessary to repulse Randall. The army is expected to-day.

Boston Industrialists in Chester.

(By Associated Press.) CHESTER, Pa., May 15.—Fitzgerald's Boston Army, numbering forty-three men, now commanded by 'Go Ahead' Jones, reached this city last night and went into camp in Star Hall. A meeting with a speaking and a variety show was held last night. The army was well supplied with food and provisions, and a generous supply of provisions was contributed by Chester workmen. The army will start for Wilmington to-day.

You Read The Evening World?

Do You Read The Sunday World?

Sanders to Have a 'Navy.'

(By Associated Press.) LEAVENWORTH, Kan., May 15.—'Gen.' Sanders has decided that he will not walk to Washington, but will adopt the name methods as Kelly, and will sail down the Missouri to Alton, Ill., thence to Cairo, from which place he will proceed by the Ohio River to Cincinnati, where a Baltimore and Ohio train will be secured.

That Tired Feeling

Means danger. It is a serious condition and will lead to disastrous results if it is not overcome at once. It is a sure sign that the blood is impoverished and impure. The remedy is found in

MINERS CONFERENCE.

Fears That Its Session Will Amount to Nothing.

CLEVELAND, May 15.—The consensus of opinion among miners and operators to-day before the Conference met was that the result of the meeting would be naught. The Conference, which was first announced to be held in the Chamber of Commerce, will begin at 2 o'clock in Case Hall. The Scale Committee of miners met in Bank Street Hall at 10 o'clock, and the operators assembled in conference in the Waldorf Hotel at 11 o'clock.

The Illinois operators and a part of the Pittsburgh district are not represented in the Conference, so whatever terms, if any, may be agreed upon, must be ratified by the absentees before they become effective. Therefore a contingent clause will be the only thing that will prevent the Conference being an utter failure. The miners appear to be firmly united for the mutual interest of all, and the operators seem to be equally so.

If one section or all will go to work, and under no other conditions, the miners be operated. What the operators will do is a question all the men feel that right and justice are on their side, and that they will stand only as the result of treachery among themselves.

The Scale Committee in its report has recommended that the miners be paid in a manner to work no injustice to the miners of one section as compared with the others. The miners for the wages paid before the reductions were made last Fall and Winter. In general, the scale provides for the following rates:

Ohio, 70 to 85 cents; Pennsylvania, 66 to 72 cents; Illinois, 50 cents; Indiana, 50 cents; Maryland, 50 cents; and West Virginia, 50 cents. The miners at that State decide to join the movement.

Of course, Ohio, Pennsylvania, Indiana and Illinois are the important States. Reductions have been made in all of them. The miners of that State had desired to work after May 1 they would have been compelled to accept a 20 per cent. reduction.

STRIKERS PLAN A RAID.

There May Be Trouble in the Coke Region To-Day.

(By Associated Press.) CONNELLSVILLE, Pa., May 15.—The only change in the strike situation in this section of the region yesterday was a slight increase in the working force in most of the active plants, and the result was a full force of men. When the time came to go to work at Hill Farm there was a rush for jobs, and many men had to be turned away.

A big raid has been planned by the strikers of this end of the region to take place to-day. They propose to march from points north of Connelsville, and if possible bring out all the men at work at Hill Farm, Oliver, Kyle and the Martin coke works at Fairbance. All the plants but Kyle have decided to guard the men at work. Trouble is feared.

There are now about 900 deputies on guard in the region, which it is thought will be sufficient to prevent any serious outbreak. The strikers are much excited over the report that a large number of colored men have been imported into the region for the purpose of breaking the strike.

STRIKE IN M'KEESPORT.

Over 3,000 Men Quit Work at the National Tube Works.

(By Associated Press.) M'KEESPORT, Pa., May 15.—The whole force of the National Tube Works is on a strike for the restoration of the 20 per cent. reduction made in wages last February. The number of men out on strike is about 3,000. The mill shut down last night. It is probable that the 2,000 men in the National Rolling Mill, which is dependent upon the tube works and is controlled by the same company, will join the strike.

Kentucky Miners Will Strike.

(By Associated Press.) OWENSBORO, Ky., May 15.—At a meeting of miners held at McHenry mines it was decided to strike all the mines working at the Drakesboro, Deviler, Central City, McHenry, Taylor, Williams, Echols, Mercer, Hillside and Powderly's mines in the district should strike. They number 1,200 or 1,500 men and it will seriously affect the coal supply here.

BARNEY PERSUADED TO BUY

He Says Villard & Co. Said R. F. and C. C. Was a Good Thing.

But After the Purchase He Found Out Differently.

Director Charles T. Barney, of the Northern Pacific, was again a witness to-day before Special Master Alfred L. Cary, who is investigating the Villard management of that company, and especially the deal by which the Chicago terminals were secured in 1890.

One of the properties purchased by the Northern Pacific was the Rocky Fork and Cook City Railroad Company. Mr. Barney said he had purchased 400 certificates of this company in January, 1890. He did this against his judgment, but he said he was persuaded to buy the stock by Mr. Villard and other officers of Northern Pacific, who insisted that it would be a good thing for the latter company to acquire that property.

He added that it was represented to him that the contract which had been made at that time with the Rocky Fork and Cook City as a coal feeder would save the Northern Pacific from \$500,000 to \$700,000 annually.

This saving, however, was to a large extent imaginary, and it was found that the deal could not be made so cheaply as had been represented. It was the only coal property, however, that was available for the Northern Pacific, and at that time it appeared to many of the directors a valuable acquisition.

The next witness called was Charles H. Leland, a former director in the Northern Pacific. Leland was over with this witness about the same ground covered in the examination of Mr. Barney. Mr. Leland was questioned closely as to the details of the transactions by which the Chicago terminals were acquired.

Mr. Leland produced a number of notes given by the Oregon and Transcontinental in the purchase of the Chicago terminal properties, and called attention to one of these notes in which the figure in the corner were \$500,000, while in the body of the note the amount was written out as \$100,000.

Mr. Leland said he understood very little about the alleged deal, but that he had been a member of the board at that time and simply acquiesced in what Mr. Villard and the others had done. He said he was the President of the Sixth National Bank of this city when it was closed down by the Chicago terminal syndicate. At the close of his examination a recess was taken.

Why Consult a Man?

"No man ever suffered pangs like unto woman."

"Women, therefore, gladly turn to a woman for sympathy, counsel, and help in their peculiar troubles."

"Lydia E. Pinkham, of Lynn, Mass., deserves the confidences showered upon her by thousands."

"Her Vegetable Compound has done more for women than any other remedy."

"The great cause of woman's misery is in her womb. Lydia E. Pinkham's Vegetable Compound goes direct to the source of trouble, drives out disease, and cures backache, fainting, despondency, bloating, ovarian troubles, and leucorrhœa. All druggists."

"I would have been in my grave if I had not taken Mrs. Pinkham's medicine."

Mr. Hannah Hyde, Bethel, Ind.

CURES OTHERS

of the blood, adding strength and vigor to the system. It cures all scrofulous, skin and scalp diseases by purifying the blood. Scrofula in all its various forms, Eczema, Tetter, Salt Rheum, Erysipelas, Boils, Carbuncles, Enlarged Glands, Tumors and Swellings, and every kindred ailment, are perfectly and permanently cured by it.

BARK IN AN ICE FLOE.

Steamer Sights Unknown Vessel in a Dangerous Position.

(By Associated Press.) PHILADELPHIA, May 15.—The Dutch tank steamer La Heslaye, Capt. Ninnis, arrived here yesterday from Antwerp after a dangerous passage of four days and one-half days. She became tightly wedged in tremendous ice floes on May 9 off the Newfoundland coast. While forcing her way through this formidable obstruction on the afternoon of that day Capt. Ninnis observed in the distance, tightly imprisoned within the floes, a large iron bark under full sail.

Capt. Ninnis could not get close enough to the unfortunate vessel to discover her name and judging from the fact that the bark was seen at the same place for three days, he concluded that she had been imprisoned for some time. Her chances of becoming free were small, and the captain thought that she had been in imminent danger of being crushed by the toppling bergs that surrounded her.

Andy Fox and Wife Reconciled.

(By Associated Press.) CHICAGO, May 15.—Andrew Fox and his wife have been reconciled, and are now living happily together at their home, No. 247 North Franklin street. The husband and wife have forgotten their difficulties, brought about by the trying scenes of the Chicago trial, and have agreed to come together for their children's sake. The reconciliation of this couple is a rare occurrence in the city.

Grant alleges that Cunningham knew his statements regarding Wilson were false.

When arrested Cunningham protested that there had not been any mistake, and that he had not been guilty of fraud.

Mr. Thurston was seen at his office by an "Evening World" reporter to-day and when told of Cunningham's arrest seemed greatly surprised.

"Mr. Cunningham," he said, "was in the employ of this company for several years, and we always considered him strictly honest. The stock of this company, and my acceptance of which you may be judged as security for a loan, were obtained by him in the regular course of business and in an honest manner."

"In his transactions with us," said Mr. Thurston, "he has never deceived or reached himself and failed to pay on the exact date promised, but has always paid promptly and in full."

Mr. Grant refused to say anything concerning his transactions with Cunningham beyond what is included in his affidavit.

Cunningham has recently been interested in mining operations and insurance business. He had an office at 120 Broadway. He is said to be a friend of ex-Mayor Hewitt and Senator Jones, of Nevada, with whom he is said to have been associated in some of his mining ventures.

The unknown cost of all in our prices, but it is necessary with Geo. L. Fisher & Co., of 14th St., and before they move to 2d St.
